About the greenwerk.
the greenwerk. advocates fair and sustainable use of global resources, access to renewable energies for all and the ambitious implementation of the Paris Agreement. We offer advisory services in the field of climate and energy policy, with a focus on instruments and activities for GHG reduction, the promotion of renewable energies and climate finance. Our expertise is based on many years of experience in climate policy and the energy sector and, in particular, in the practical implementation and analytical support of instruments, processes and negotiations under the United Nations Framework Convention on Climate Change (UNFCCC). the greenwerk. was founded in 2014 and currently has 8 permanent employees. We also work with a network of experts.
